

MEET CARY WISE

Cary is presently a resident of Hondo Texas. He and his wife, BJ (Betty Jean), have lived in the Hondo area before, but have resided at their present home for almost two and a half years.

Cary was born in Franklin, Louisiana on June 30th, 1950. Immediately thereafter the family moved to Lake Jackson, Texas near the gulf coast, where Cary grew up and graduated from Brazosport High School in 1968.

Cary attended Wharton County Junior College on a music scholarship where he majored in business administration and was elected President of the Freshman Class.

In 1970 during the Viet Nam conflict, Cary enlisted in the US Air Force where he became a loadmaster on C-130 and C-141 aircraft.

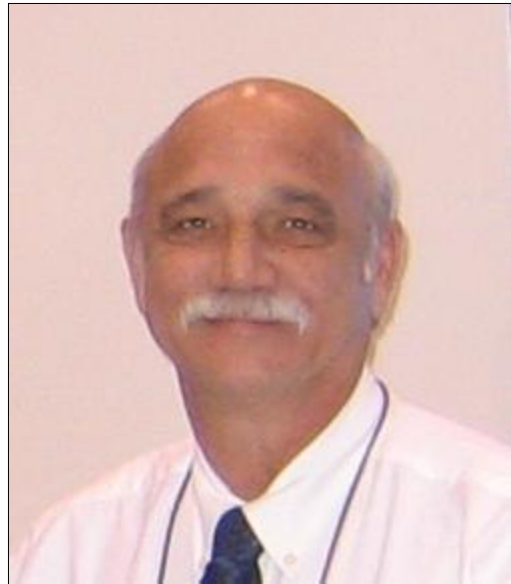

Upon being honorably discharged in 1974, Cary went to visit a friend in Michigan, and stayed for 15 years when he was accepted into the Michigan State Police as a State Trooper.

After serving as a State Trooper, Cary went into the water treatment/car wash industry where he eventually became the owner of his own water reclamation business which he currently still owns.

Cary has always been active in “conservative” politics, but is seeking public office for the first time. With the current state of affairs on the National and State level, Cary’s philosophy is one of, “It is again time to get the professional politicians out and the citizen politician in!”

Cary has been a guest speaker many times at National and Regional conventions related to his industry. He also has been published numerous times in industry related trade publications, and is always a welcomed motivational speaker at sales meetings.

Cary very much is a believer that we as a State and as a Nation have gotten away from the roots of our founding fathers and the guidelines of our constitution. He is dedicated to once again return government to those founding guidelines, and return the inherent rights of the people of Texas, back to the people as laid out in the Texas Constitution!
